... in you potentiality echoes -
a sound like today, yesterday, tomorrow...
dormant in a seed to be awakened in time . . .
... and a personal image, though an entity,
begins fragmented with edges like cut glass –
the nerve endings
and more questions than answers
to be mitred and fused . . .
... an obligation to join your all into a self,
an ache which implores increasingly with age . . .
yet in gaining that complete vision, never to lose the essential degree of childy vulnerability . . .
the facility in crashing and rebuilding
which makes up the "human" in being . . .
